Renal protein reabsorption in health and disease

The talk will focus on our knowledge of the reabsorptive machinery, megalin and cubilin, in the renal proximal tubule.

It will touch on the diseases caused by dysfunction of the system and the potential role of the receptors in progression of kidney disease.

Time: Monday 25th November 2019, 17:15h
Location: Pathologie
Universitätsklinikum Erlangen
Krankenhausstr. 8-10
Oberer Hörsaal, Raum A 2.150

The seminar is video transmitted to:
Universität Regensburg
Institut für Physiologie
Raum VKL 4.1.29
