

Eigene Publikationen zum Thema Stress am Arbeitsplatz und Burnout

Falls Sie eine persönliche Kopie wünschen, so melden Sie sich bitte im Sekretariat bei Heike.Hochmuth@psychologie.uni-regensburg.de

2018

Bellingrath, S. & **Kudielka, B.M.** (2018). Psychoneuroendokrinologie der Resilienz. In C.J. Fiebach, M. Fingerle, & S. Forstmeier (Eds.). *Neuropsychologie der Resilienz*. Berlin: Springer.

Siegrist J., **Kudielka B.M.** & Bellingrath S. (2018). Stress and emotions. In: E.B. Fisher, L.D. Cameron, A.J. Christensen, U. Ehlert, B. Oldenburg, F.J. Snoek, Y. Guo (Eds.). *Principles and concepts of behavioral medicine: a global handbook*. Springer: Berlin, Heidelberg, New York.

Zänkert S. & **Kudielka B.M.** (2018). Intra- and interindividual differences in cortisol stress responses. In: O.C. Schultheiss & P.H. Mehta (Eds.). *Routledge international handbook of social neuroendocrinology, section 5*. London, UK: Routledge.

2017

Bellingrath S. & **Kudielka B.M.** (2017). Biological pathways to stress-related disease vulnerability in educators. In: T. McIntyre, S. McIntyre & D. Francis (Eds.). *Educator stress: an occupational health perspective*. Springer: Berlin.

Henze G.-I., Zänkert S., Urschler D., Hiltl T.-J., **Kudielka B.M.**, Pruessner J.C., & Wüst S. (2017). Testing the ecological validity of the TSST: Associations with real-life exam stress. *Psychoneuroendocrinology*, 75:52-55.

2016

Bellingrath S. & **Kudielka B.M.** (2016). Psychobiological pathways from work stress to reduced health: naturalistic and experimental studies on the model of Effort-Reward-Imbalance. In: J. Siegrist, M. Wahrendorf (Eds.). *Work stress and health in a globalized economy - The model auf effort-reward imbalance, chapter 7, 145-170*. Springer: Berlin.

Kudielka B.M. (2016). Chronischer Stress am Arbeitsplatz und Burnout- Eine biopsychologische Perspektive. *Blick in die Wissenschaft*, 33:28-32.

2013

Bellingrath S., Rohleder N. & **Kudielka B.M.** (2013). Effort-reward-imbalance is associated with higher LPS-stimulated production and lower glucocorticoid sensitivity of interleukin-6 in vitro. *Biological Psychology*, 92:403-409.

Bellingrath S., Wolfram M. & **Kudielka B.M.** (2013). Chronic psychosocial work stress in teachers: An update on empirical psychobiological findings. In: L. Cavalcanti & S. Azevedo (Hrsg.), *Psychology of Stress: New Research*, 179-186. New York: Nova Science Publishers, Inc.

Feuerhahn N., Bellingrath S. & **Kudielka B.M.** (2013). The interplay of matching and non-matching job demands and resources on emotional exhaustion in teachers. *Journal of Applied Psychology: Health and Well-Being*, 5:171-192.

Feuerhahn N., Stamoov-Roßnagel C., Wolfram M., Bellingrath S. & **Kudielka B.M.** (2013). Emotional exhaustion and cognitive performance in apparently healthy teachers: A longitudinal multi-source study. *Stress and Health*, 29:297-306.

Wolfram M., Bellingrath S., Feuerhahn N. & **Kudielka B.M.** (2013). Cortisol responses to naturalistic and laboratory stress in student teachers: Comparison with a non-stress control day. *Stress and Health*, 29:143-149.

Wolfram M., Bellingrath S., Feuerhahn N. & **Kudielka B.M.** (2013). Emotional exhaustion and overcommitment to work are differentially associated with hypothalamus-pituitary-adrenal (HPA) axis responses to a low-dose ACTH₁₋₂₄ (Synacthen) and dexamethasone-CRH test in healthy school teachers. *Stress – The International Journal on the Biology of Stress*, 16:54-64.

2012

Feuerhahn N., Kühnel J. & **Kudielka B.M.** (2012). Interaction effects of effort-reward-imbalance and overcommitment on burnout and job performance. *International Journal of Stress Management*, 19:105-131.

Kudielka B.M., Gierens A., Hellhammer D.H., Wüst S. & Schlotz W. (2012). Salivary cortisol in ambulatory assessment – some dos, some don'ts, some open questions. *Psychosomatic Medicine*, 74:418-431.

Voltmer E., Zander M., Fischer J.E., **Kudielka B.M.**, Richter B. & Spahn C. (2012). Physical and mental health of different types of orchestra musicians compared to other professions. *Medical Problems of Performing Artists*, 27:9-14.

2011

Feuerhahn N., Stamoov-Roßnagel C. & **Kudielka B.M.** (2011). Passung in Organisationen. In: U.M. Staudinger, B. Godde, H. Heidemeier, **B.M. Kudielka**, K. Schömann, C. Stamoov-Roßnagel, C. Voelcker-Rehage & S.C. Voelpel (Hrsg.), *Den demografischen Wandel meistern: Eine Frage der Passung. Ergebnisse des „demopass“ Projekts*, 37-58. Bielefeld: W. Bertelsmann Verlag GmbH & Co. KG.

Lynch S.M.*, Gander M.-L.*, Kohls N., **Kudielka B.**, Walach H. (2011). Mindfulness based coping with university life (MBCUL) – a non-randomized waitlist-controlled pilot evaluation. *Stress and Health*, 27:365-375. (* zwei Erstautoren)

2010

Bellingrath S., Rohleder N. & **Kudielka B.M.** (2010). Healthy working school teachers with high effort-reward-imbalance and overcommitment show increased pro-inflammatory immune activity and a dampened innate immune defence. *Brain, Behavior & Immunity*, 24:1332-1339.

Kudielka B.M. & Wüst S. (2010). Human models in acute and chronic stress research - assessing determinants of the individual stress response. *Stress*, 13:1-14.

Looser R.R., Metzenthin P., Helfricht S., **Kudielka B.M.**, Loerbroks A., Thayer J.F. & Fischer J.E. (2010). Circadian endocrine cortisol secretion, stress responses and autonomous nervous system regulation in critical care personnel. *Psychosomatic Medicine*, 72:281-289.

Stamov Roßnagel C., Baron S., **B.M. Kudielka** & Schömann K. (2010). A competence perspective on lifelong workplace learning. In: M.P. Caltone (Hrsg.), *Handbook of lifelong learning developments*, 79-209. New York: Nova Science Publishers, Inc.

2009

Bellingrath S., Weigl T. & **Kudielka B.M.** (2009). Chronic work stress and exhaustion is associated with higher allostatic load in female school teachers. *Stress*, 12:37-48.

Hellhammer D.H., Wüst S & **Kudielka B.M.** (2009). Salivary cortisol as a biomarker in stress research. *Psychoneuroendocrinology*, 34:163-171.

2008

Bellingrath S. & **Kudielka B.M.** (2008). Effort-reward-imbalance and overcommitment are associated with hypothalamus-pituitary-adrenal (HPA) axis responses to acute psychosocial stress in healthy working school teachers. *Psychoneuroendocrinology*, 33:1335-1343.

Bellingrath S., Weigl T. & **Kudielka B.M.** (2008). Cortisol dysregulation in school teachers in relation to burnout, vital exhaustion, and effort-reward-imbalance. *Biological Psychology*, 78:104-113.

Kudielka B.M. & Bellingrath S. (2008). The Trier Teacher Stress Study: a psychobiological perspective. In: L.N. Piccard (Hrsg.), *Biological psychology: new research*, 9-15. New York: Nova Science Publishers, Inc.

Kudielka B.M., Bellingrath S. & von Känel R. (2008). Circulating fibrinogen but not D-dimer is associated with vital exhaustion in school teachers. *Stress*, 11:250-258.

Kudielka B.M. & Wüst S. (2008). The cortisol awakening response (CAR): a useful tool for ambulant assessment of hypothalamus-pituitary-adrenal (HPA) axis activity. In: A.-L. Léglise (Hrsg.), *Progress in circadian rhythm research*, Kapitel XI, 223-234. New York: Nova Science Publishers, Inc.

von Känel R., Bellingrath S. & **Kudielka B.M.** (2008). Association between burnout and circulating levels of pro- and anti-inflammatory cytokines in school teachers. *Journal of Psychosomatic Research*, 65:51-59.

2007

Kudielka B.M., Buchtal J., Uhde A., Wüst S. (2007). Circadian cortisol profiles and psychological self-reports in shift workers with and without recent change in the shift rotation system. *Biological Psychology*, 74:92-103.

Kudielka B.M., Hellhammer D.H. & Kirschbaum C. (2007). Ten years of research with the Trier Social Stress Test (TSST) – revisited. In: E. Harmon-Jones & P. Winkielman (Hrsg.), *Social neuroscience: integrating biological and psychological explanations of social behavior*, Kapitel 4, 56-83. New York: The Guilford Press.

Kudielka B.M., Wüst S., Kirschbaum C. & Hellhammer D.H. (2007). The Trier Social Stress Test (TSST). In: G. Fink (Hrsg.), G. Chrousos, I. Craig, E.R. de Kloet, G. Feuerstein, B.S. McEwen, N.R. Rose, R.T. Rubin, A. Steptoe (assoziierte Hrsg.), *Encyclopedia of stress*, 776-781, 2. überarbeitete Auflage. Oxford: Academic Press.

Preckel D., Meinel M., **Kudielka B.M.**, Haug H.-J. & Fischer J.E. (2007). Effort-reward-imbalance, overcommitment and self-reported health: is it the interaction that matters? *Journal of Occupational and Organizational Psychology*, 80:91-107.

2006

Kudielka B.M., Bellingrath S. & Hellhammer D.H. (2006). Cortisol in burnout and vital exhaustion: an overview. *Giornale Italiano di Medicina del Lavoro ed Ergonomia [Applied Psychology to Work and Rehabilitation Medicine]*, 28 Suppl.1:34-42.

Kudielka B.M., von Känel R., Preckel D., Zraggen L., Mischler, K. & Fischer J.E. (2006). Exhaustion is associated with reduced habituation of cortisol stress responses to repeated acute psychosocial stress. *Biological Psychology*, 72:147-53.

2005

Kudielka, B.M. (2005). „Die Balance muss stimmen“. Interview. In: *O.ton Das O₂ Mitarbeitermagazin*, 2:21.

Kudielka B.M., Hanebuth D., von Känel R., Gander M.-L., Grande G. & Fischer J.E. (2005). Health-related quality of life measured by the SF12 in working populations: associations with psychosocial work characteristics. *Journal of Occupational Health Psychology*, 10:429-440.

Preckel D., von Känel R., **Kudielka B.M.** & Fischer J.E. (2005). Overcommitment to work is associated with vital exhaustion. *International Archives of Occupational and Environmental Health*, 78:117-22.

2004

Kudielka B.M. & Kern S. (2004). Cortisol day profiles in victims of Mobbing (bullying at the work place): preliminary results of a first psychobiological field study. *Journal of Psychosomatic Research*, 56:149-150.

Kudielka B.M., von Känel R., Gander M.-L. & Fischer J.E. (2004). Effort-reward imbalance, overcommitment and sleep in a working population. *Work and Stress*, 18:167-187.

Kudielka B.M., von Känel R., Gander M.-L. & Fischer J.E. (2004). The interrelationship of psychosocial risk factors related to coronary artery disease in a working population: do we measure distinct or overlapping psychological concepts? *Behavioral Medicine*, 30:35-43.

von Känel R., **Kudielka B.M.**, Abd-el-Razik A., Frey K. & Fischer J.E. (2004). Relationship between overnight neuroendocrine activity and morning haemostasis in working men. *Clinical Science*, 107:89-95.

von Känel R., **Kudielka B.M.**, Schulze R., Gander M.-L. & Fischer J.E. (2004). Hypercoagulability in working men and women with high levels of panic-like anxiety. *Psychotherapy and Psychosomatics*, 73:353-360.

2002

Kudielka B.M. & Kirschbaum C. (2002). Stress und Gesundheit. In: R. Schwarzer, M. Jerusalem & H. Weber (Hrsg.), *Gesundheitspsychologie von A bis Z*. Ein Handwörterbuch, 562-564. Göttingen: Hogrefe.

2001

Kudielka B.M. & Kirschbaum C. (2001). Stress and health research. In: N.J. Smelser & P.B. Baltes (Hrsg.), *The international encyclopedia of the social & behavioral sciences*, Vol. 22, 15170-15175. Amsterdam und Oxford: Elsevier.

1997

Roth W.L., Klusemann J. & **Kudielka B.M.** (1997). „Lebenslust statt Alltagsfrust“ - Konzeption, Beschreibung und erste Evaluation eines Trainings zur Steigerung des psychischen Wohlbefindens. *Report Psychologie*, 22:858-871.
