Universität Regensburg

Fakultät für Informatik und Data Science

Lehrstuhl für Maschinelles Lernen

Job Advertisement University of Regensburg | Number 24.297

The University of Regensburg with its more than 20.000 students is an innovative and interdisciplinary oriented campus university with a broad range of academic disciplines and research activities for young people from Germany and abroad. The Chair of Machine Learning at the Faculty of Computer Science and Data Science conducts research and teaching on statistical machine learning and its applications in biomedicine and natural science.

Starting **April 1, 2025**, there are several positions for

Student Assistants (m/f/d)

with a **minimum working time of 34 hours per month** for a duration of **6 months**. The compensation will be according to the usual hourly rates for student assistants.

Your tasks:

- Supervising students exercise classes in the "Machine Learning" lecture (4th semester Bachelor of Computer Science and Data Science)
- Assisting in the creation of exercises
- Supporting the coordination and organization of the course

What we seek:

- Enrollment in at least the 2nd semester at a German university for a degree that leads to a professional qualification
- Good knowledge in machine learning, statistics, and stochastics
- Programming skills in Python or R
- Excellent communication skills and good English proficiency
- Ideally, you are enrolled in a quantitative master's program (e.g., Mathematics, Computer Science, Computational Science, or Physics)

We offer you:

- Opportunities for professional development in the field of machine learning
- Acquisition of teaching experience in dealing with students

The University of Regensburg aims to increase the proportion of women and therefore expressly encourages qualified women to apply. The University of Regensburg is particularly committed to support reconciliation of work and family life (for details visit <https://www.uni-regensburg.de/universitaet/personalentwicklung/familien-service>). Candidates with registered severe disabilities are given preference over non-disabled applicants who do not otherwise have statutory preferential status if their overall personal aptitudes, skills and qualifications are equal. Please, indicate the existence of a severe disability so that a representative for people with disabilities can be invited to the interview if requested.

Please, also note that we will not cover travel and other expenses for personal interviews.
