

Fr, 12.11.2010

10.00 Anmeldung/Begrüßung

**10.20 Miodrag Guzvic**

**11.20 Roche**

11.45 Mittagspause

13.00 **Ulrike Heigl:** „Impact of TNF on listeria monocytogenes containing phagosomes“

13.30 **Anja Thomas:** „Investigation of early proteomic changes in liver affected by non-alcoholic steatohepatitis“

14.00 **Qiagen**

14.30 Kaffeepause & Postersession

15.30 **Johanna Schmidt:** „Molecular changes in keloid and skin scleritis“

16.00 **GelCompany**

16.30 **Christian Florian:** Priming of T cell subtypes occurs within distinct immunological platforms of skin-draining lymph nodes“

17.00 Pause & Abendessen

20.00 Get-together

Sa, 13.11.2010

9.30 **Christina Justenhoven**

10.30 **Daniela Valletta:** „Increased expression of the atypical cadherin Fat1 in hepatocellular carcinoma promotes tumorigenicity“

11.00 **Katharina Böckl:** „Improvement of HIV, GAG, POL, NEF and ENV specific immune responses by the use of diverse vaccine candidates“

11.30 **Maria Martin:** „The ubiquitin-editing enzyme A20 regulates intestinal inflammatory responses“

12.00 Mittagspause

13.15 **Gabriela Schiechl:** „Inhibition of `Triggering receptor expressed on myeloid cells 1` (Trem-1) prolongs allograft survival during chronic cardiac rejection“

13.45 **Sophie Schirmer:** „Proteomics of the Cellular Response to Ionizing Radiation in ATM-Mutation Carriers“

14.15 **Laura Klingseisen:** „Adenovirus E3-14.7K mediated TNF-resistance is independent from optineurin interaction“

14.45 talk: **Miodrag Guzvic**

15.30 Kaffeepause & Vergabe des Posterpreises

16.00 Verabschiedung
