

Job advertisement of the Universität Regensburg | Nummer 22.343

With more than 20,000 students, the University of Regensburg is an innovative and interdisciplinary campus university with diverse and highly renowned research activities and a broad and attractive range of courses for young people from Germany and abroad. The focus of the research activities of the Chair of Clinical Psychology and Psychotherapy is the behavioral and neuroscientific investigation of anxiety and anxiety disorders, stress and addiction disorders, the evaluation of innovative therapy methods, and the investigation of therapy processes. There is a vacancy for the next possible date as a

Akademischer Rat auf Zeit / Akademische Rätin auf Zeit (m/w/d)

full-time (40 hours per week) for a period of 3 years as a temporary civil servant. An extension for a further 3 years is possible. The salary is based on salary group A 13 BayBesG.

Your tasks:

- Carrying out research projects
- Acquisition of third-party funds
- Publication activities
- Teaching activities (5 semester hours per week)
- Possibly working in the university outpatient clinic for psychotherapy
- You are expected to take the opportunity for further qualification

Our Requirements:

- Completed university studies in psychology
- Very good doctoral degree in the field of clinical or biological psychology
- Good English and methodological skills
- Systematic, independent working method, commitment, ability to work in a team
- Knowledge of or interest in psychophysiological methods or virtual reality
- If applicable, license to practice as a psychological psychotherapist
- If applicable, relevant scientific publications

If the requirements under civil service law are met, the candidate will be offered a temporary civil service contract. Otherwise, employment under private law for a limited period may also be possible.

We offer you:

- A constructive working atmosphere in a friendly and open-minded team
- Regular scientific exchange
- An excellent laboratory infrastructure for recording physiology (incl. EEG) and behavior (incl. eye movements), several virtual reality laboratories
- Very good technical support within the department for the implementation of research projects
- Interdisciplinary contacts to medical institutions as well as to media informatics

The University of Regensburg aims to increase the proportion of women and therefore expressly encourages qualified women to apply. The University of Regensburg is particularly committed to the compatibility of family and career (more information at <https://www.uni-regensburg.de/universitaet/personalentwicklung/familien-service>).

In the event of essentially equal suitability, severely disabled applicants will be given preference. If you have a severe disability, please indicate this in your application. Please note that we cannot assume any costs that you may incur during an interview.

If you have any questions, please contact Prof. Dr. Andreas Mühlberger (e-mail: andreas.muehlberger@ur.de/Fon: 0941 943-6041). We look forward to receiving your detailed application, which you should send in a PDF file by e-mail to sek.muehlberger@ur.de by January 15, 2023.
